

ID	Description
GO:0032731	positive regulation of interleukin–1 beta production
GO:0009595	detection of biotic stimulus
GO:1901653	cellular response to peptide
GO:0002699	positive regulation of immune effector process
GO:0032732	positive regulation of interleukin–1 production
GO:0032611	interleukin–1 beta production
GO:0032651	regulation of interleukin–1 beta production
GO:1904338	regulation of dopaminergic neuron differentiation
GO:0032612	interleukin–1 production
GO:0032652	regulation of interleukin–1 production
